Dear Parents,

It is hard to believe it's already time to start planning for next school year! As we have been communicating with families over the past several weeks, it is now time to seek re-enrollment for your student. We have been blessed with another year of strong enrollment, we are seeing our students succeed academically, and are in the process of continuing exciting curriculum initiatives here on campus. I am thankful that you are an intricate part of our Indiana Academy family and a continued supporter of Seventh-day Adventist education.

At Indiana Academy, we believe God has called us to have a high expectation of student responsibility and accountability as it relates to academics, social behavior, and commitment to spiritual growth. I believe that God is preparing His people for His Son's soon return and I want to see our students prepared for that day. If He should delay His return, then I want our students to have developed an intrinsic desire to serve Him in whatever capacity He calls them to, both while a student at Indiana Academy and wherever their paths may lead after their time on campus is complete.

With this in mind, we are underway in our enrollment process for the 2022-2023 school year and we are excited to see the names of eager and committed new students already starting to register. God willing, we anticipate reaching a near capacity enrollment next school year and now is the time to think about if your student will be a part of what God is doing at Indiana Academy. We are blessed to be able to partner with the Indiana Conference of Seventh-day Adventists in offering the "Conference Partnership" which can help provide financial assistance to qualifying families. Please be sure to complete the included Conference Partnership application as soon as possible as many of those funds are limited and distributed first-come, first-served. Once we have reached capacity either in a particular class or in our residence halls, students will be placed on a general admission waiting list for admission consideration.

I would ask that enrollment at Indiana Academy be a matter of prayerful consideration for you, your student, and the rest of your family. I know that it is a commitment to send your student to Indiana Academy, but I believe it is one that can render immeasurable rewards, not only in the present, but in the hereafter as well. I do want to reiterate however, that while I believe every student *can* benefit from attending Indiana Academy, we may not be the right environment *for* every student.

We are called to a higher standard; our school's total program is not intended to resemble the standard of the world. Our expectations regarding dress, entertainment, electronics, and behavior may not seem "popular" by some, but I am excited, encouraged, and humbled to see so many young people embrace this calling. It is my hope that you and your student share this passion and commitment. I ask that you would prayerfully discuss and evaluate with your student their future education plans and look over this additional information about re-enrolling at Indiana Academy for the 2022-2023 school year.

If you have any questions about the enrollment process, or the mission and focus of Indiana Academy, please contact the school office as soon as possible so that you can make the most informed decision for your student.

With Appreciation and Blessings,

Steve Baughman,
Principal

ADMISSIONS POLICY

It is the policy of Indiana Academy to admit students who already have a personal relationship with God and are living a Christian lifestyle, as well as those who are willing to experience the same. It is our policy to admit students who by their behavior or declaration show commitment to the principles found in Scripture and the mission of Indiana Academy. We feel strongly that there should be mutual accountability between the school, the parents, and the student. This makes it a necessity that the student is actively involved in the decision to apply to Indiana Academy.
